Submission:

RE Stormwater Charge - Wyong Shire Council .

We live in Gordon Ave., Summerland Point and our property has absolute water frontage. Because of the topography no storm water from our property is discharged into Council's stormwater system but discharges direct into Lake Macquarie. Some neighbouring properties identical to ours have been exempted by Council from paying the stormwater charge but we are being charged each year. This is clearly an anomaly and is discriminatory and we submit that either all properties pay the charge or all properties similar to ours be exempted from the charge.
