Submission: As self funded seniors our income is decreasing not increasing and an increase of 260% is totally unfair.

Cost of living has gone up 30% .and this is bad enough and we can't do anything about it. Why are you attacking the most vulnerable with this HUGE INCREASE.?

PLEASE RECONSIDER.

Seniors tickets used to be \$1.00 a day. Then they went to \$2.50 per day. Having a cap of \$9 per day is too big an increase. If you must increase why not just raise it by 50 cents?

This not just an attack on our income by also our way of life.

By increasing fares you will effectively be decreasing use of public transport by seniors.

You too will be old one day and with limited assets and no income coming in.

Seriously consider this submission.
