Submission: On behalf of those senior citizens who are over the age of 85 years, and who have paid, and still pay taxes, I request consideration be given to them in relation to the great hike in Opal fares. Not all of these citizens can continue to drive their cars and so rely on public transport. They do not need further restrictions put on them with price increases. Over 85 year olds do not need extra financial stresses. Let's show them some respect by aligning their fares with those of pensioners.

Please give consideration to this request. Thank you
