Submission: If the Senior fare is increased I will not be doing charity work that I do at a hospital at Darlinghurst. I am a self funded retiree aged 74 and I also look after grandchildren on a regular basis as both parents have to work because the Govt. allowed to many people from overseas to come in and purchase property and thus pushed up the cost of housing for every day young Australians! I will not continue with any fund raising that I do for the Liberal Party nor will I attend any Liberal Party function as I would not be able to afford to do so, this would also include attending the Women's Council once a month and attending fund raising for this group. Transport in WA is free for Seniors out of peak times and so is it in SA. Victoria have a similar system so how come you want to charge us so much here in NSW? Of course if we suddenly find due to Health costs etc, etc that we run out of money, put away for our retirement by working as hard as we have, we will also end up asking for Govt.assistance. I have paid taxes for 53 years and as far as I can see if I came from overseas I would be supported with Govt.assistance. A cut to Parliament expenses and retirement funds should be done first! We worked hard to help put you into Govt.and I will work hard to change the Govt.if necessary!
