Date of submission: Tuesday, 2 February 2016

Submission: I am a self-funded retiree, and my income is now very close to the pension. If I lost my concession it would make a severe impact on my mobility and social life. It would also restrict my recreation, which I had looked forward to as a major part of my retirement.

I strongly suspect that much of the 'saving' envisioned in this proposal will be transferred as expenditure in the healthcare budget.
