

Author name: M. Grant

Date of submission: Monday, 1 February 2016

Submission: I am a self-funded retiree, but am not wealthy. The Opal concession card at its existing price allows me to travel easily, and to participate in various kinds of activities beyond my home. If the cost is increased, this would curtail my opportunities to lead an active, participatory life. Social isolation could have harmful consequences for me, and the many like me who are in the same situation.
