Submission: I commute 5 days a week using 2 trains, the T1 from Parramatta to Redfern, then the T3 to my work in Alexandria, after my eighth trip and about \$40 spent the rest of my trips for the week are free which in my opinion is awesome. However If someone who does not use public transport during the week simply uses it on Sunday, all that they pay is \$2.50. That is not fair on people like myself who use public transport to commute to work during the week. I believe that in my opinion the \$2.50 cap should either be increased or removed completely, in my opinion I also believe this will reduce the strain and crowding on ferries during the weekend. Thank you for allowing me to contribute to this review.

Thanks and regards
