Submission: My husband and I are border line self funded seniors. We attend Ian Thorpe gym on Harris street from Glebe. The most convenient way is by light rail x 3 per week. This is to keep us mobile and independent as long as possible and stops us being a drain on the community. If you take away the concessions, we will be unable to afford doing this. We do not abuse our transport concessions, but it really helps us. We do not receive any other benefits from the government.
