

Cooranbong Water IPART

To Whom It May Concern

We are very concerned about the Sewerage/Treatment Plant at 617 Freemans Drive. The position is so wrong.

It is not only close to a preschool, shops, church and community centre but also homes. We live on an estate across the road and do not want odour and noise. We also have a large lake and after heavy rain this can flood. Where will the overflow from the plant end up when this happens? Also what if another power failure?
