Submission: I am a self funded retiree who was in the workforce for 50 years paying tax, I do not draw down on any other agency and the one benefit I receive is the Opal card, you are now considering taking it away. Are you aware the impact you will have on not only me but other seniors that will reduce or limit their recreational travel at that price. A small increase in price is acceptable but it is totally unacceptable to take the Opal card benefits away from seniors.
