Submission: I am very disappointed that you are considering increasing the senior's opal card costs. My husband and I really enjoy the fact that we can travel to various places with minimal cost to us. If the increases happen it would severely curtail what we are able to do.

We have worked hard all our lives contributing to society, paid our taxes, and feel that this is a lovely treat for us in our latter years.

I would be so grateful if you would not increase the senior's opal card costs and I know that many of our senior friends would be relieved also.
