Submission: The first point needed to be made:-

“IPART” “I” Independent yes?

No, not whilst my proverbial points to the ground.

What is your email address? “nsw.gov.au” guess again

You appear to be another arm of government, a facade, and no matter what they, the government, says you are not independent. Your “boss” is NSWG

Now.

I am a self - funded retiree and I have been insulted by a certain police officer in regards to the claim that persons of age should not drive. Now proven to be ill founded on incorrect analysis so older persons are well founded in thinking no trust in the constabulary.

I have read all on your the website and forwarded to others “not connected”

The current government needs to explain why successive governments have, over time both state and federal required any and all taxpayers pay sums into their respective super schemes. “Gov Broke”? Do I now think each and all of each of you in your positions of government appear to be moving over time, responsibility to those unable to afford it at this point in time.

The current government requires and needs people to frequent public transport.

Guess what.

It don't go where they need.

Successive governments have failed and will continue to fail.

As stated 1.4 million persons have seniors cards!

Do you make it more or less attractive?

Keep in mind you and your previous like-minded “persons” convinced these people and me to be where we are currently, independent to a point. The scheme commenced in past years is correct it has not had time to accept what is being suggested.

Now it appears you wish to bleed us independent persons.

BE AWEAR, bleed us as you currently consider and each of us will be on governments books in a relatively sorter time than you perceive

This is not what you require, in all “fairness”.
