Submission:

I object to the attempt to transfer costs to landholders. The proposal is very complex. It will be VERY expensive to administer so rates money will not be used for the intended purpose but rather to support an administration system. It will also be subject to many legal challenges which will also use up valuable funds for non productive purposes. I support to area being reduced to 2 Ha. I strongly object to a centralised billing system which gives the LOCAL Board no potential for gaining efficiencies.
PLEASE HAVE ANOTHER LOOK AT REDUCING ADMINISTRATION COSTS
