Submission: Strongly against this change.

People go to work and actually paying tax for this country get hurt the most.

in 2014 I used to pay around \$30 to travel from Mortdale to City per week, now I'm paying \$40, under the new schema I'm going to pay \$50+. that's 60% increase in 2 years. even faster than the property price!

With 2 person work in the house we are paying at least \$2000 extra ( $\$20+$  per week \* 50 weeks \* 2 person) compare to 2 years ago.

And thanks but I can't change my trip to non-peak type to save money because I have a day job.

This whole policy is encourage people not going to work but live on Centerlink.

This is damaging our economy, government might gain a little bit income from this change but you are not looking at the big picture.
