**Subject:** Opposition to Train fare increase

Good afternoon,

I would like to oppose the requested Train fare increase.

I catch trains on the South Line and the Northern line every weekday. Please find following my reasons:

- The trains that I catch on both the South Line and the Northern Line are rarely air-conditioned. It's extremely cold in Winter, and very uncomfortable in Summer
- The statistics for the Northern line show an almost 100% rate of running late
- The connections between Rhodes & Macarthur mean I have to catch AT LEAST 3 trains in order to and from work each day.

Basically, my experiences with CityRail/RailCorp are both extremely inconvenient and uncomfortable and certainly not worthy of a fare increase.
