**Subject:** Train fares

To Whom it May Concern

I totally disagree about train fares increase from Jan 1 . AS a train commuters, most time the train are packed during peake hrs. We got to stand all the way to & fro returned Quakers Hill to City. If lucky we got a seat. Then the evening & night time tables are so bad espeacially for shift workers to earn their quits. Its a long wait to catch train back on Richmond line & dangerous. The train usually terminate at Blacktown & another long wait to get train to Quakers Hill onwards! No joke, most night trians to Richmond line are disgusted, dirty seats , smells of urine , vomitting & dirty floor. Once I saw a hamburger bun stuck on the window!!!!!!

There're alot of development already & most people moved to Western Sydney like Kellyville, Quakers Hill (all the Hills district). What the Hell! Suspende the duplication of the Richmond Line! Far out!!!! Promises to enhance the track for the people never get done.
