Subject: Against Train fare increases by 17% from 1st Jan 2009

Hi,

I would like City Rail consider to hold the fare increase by 1st Jan 2009.

I use train to work every day to Mascot and the cost of the train fare is expensive already. I am happy to pay the increase fare if we receive a good service, on time trains & have seats to sit. Currently the train was crowded with people and sometimes, I have to wait for the next train to go home because no more space we can squeeze in the train carriages.

Please consider if you think City Rail deserve for the fare increase for the services they provided at the moment?
