Subject: Fare increase is NOT justified

Hi

I use the trains everyday from Parramatta to Wynard station. It is rare that I get a seat. Trains are overcrowded and it is very hot and stuffy during the summer months. Trains rarely run on time and staff are unfriendly. I see no reason for honest people to pay higher fares with no privledges. We are encouraged to use trains and public transport because it is good for the environment however we are penalised where it hurts the most. We earn an honest living why should we pay more for a service that is not up top scratch. Charge more ONLY if City rail is willing to give more to the fare paying customers.

Is anyone out there listening?????
