Subject: NO to a fare raise!!!

I object to any fare raise in public transport.

Our trains are too over crowded and too old to truly justify a fare raise. Improve these to aspects and a fare raise would be reasonable...but right now it isn't.

I'm a professional who commutes to work weekdays and can afford to buy a car for everyday use. Dont push me toward polluting our earth.

Stop taking advantage of people trying to save money and the environment at the same time.
