Subject: Submission for Cityrail Fare Increases

Good Evening

I strongly oppose any suggested fare increase for Cityrail fares.

I suggest that Cityrail/railcorp search for the required funds elsewhere, including leasing airspace above train stations, to enable development of residential places [which would assist with the lack of available housing in Sydney greater metro area], and in addition to this avenue, I suggest that Cityrail/Railcorp recouperate the stolen monies as identified in the recent ICAC investigations, which totalled around \$20million of tax payers money.

A reduction of the top heavy management would also reduce railcorp/cityrail running costs.
