Subject: NSW Rail

I travel from Petersham to St Leonards everyday. I get off the train from St Leonards at Town Hall to get the train to Petersham of an afternoon. There is hardly any room to get across the platform as it is so full of people waiting for trains. On Monday I was waiting for a train and being buffeted around due to the amount of people on the platform. When the train came in the last 2 carriages were sealed off with yellow tape so no one could use the last 2 carriages. Why were they even on the train. The was so much congestion and squeezing in of people into the other 6 carriages it was dangerous.
