Dear Sir,

Please be advised that I am opposed to a rail fare increase effective January 2009.

There is no merit to the price increase considering the constant cancellations and delays by Rail Corp. I had been travelling for more than 10 years and the service is not commendable hence, I am not very happy with their request to increase the fare.

Yesterday was another incident when the train just stopped at Hornsby at 7.20am and a thousand people were directed to catch another train at platform 1. The train was not on time and I got to the office late. We pay the correct fare for a service that is just not delivering. The plan for a fare increase again, yes again for a worse service is just disgusting and obscene.

Lastly, I don't belong to the average salaried people as I earn much, much less than \$98,000 a year.
