Subject: Opposed to fare increase

Hi,

I am writing to complain about the outrageous fare increase that is proposed to commence next year.

I travel to the City every day from Woonona and feel strongly about the government not encouraging commuters from outside of Sydney. I have been travelling for a few years and since then my travelling time has increased dramatically. In this day with increased technology you would think that trains would actually be a lot quicker NOT slower!

I think the increase would be an insult to us commuters who always have to put up with and pay for a 3rd world service.
