**Subject:** Train fare Increase - appalling!

To Whom It May Concern:

The trains are appalling – dirty, vandalised and some even have broken/damaged seats! What is the basis of this train fare increase???? What improvements will the commuters be getting??? The economy isn't exactly in the greatest shape and why add an extra burden to average income holders by increasing the train fare!!!

What more, most people working on the trains and in the train stations are providing such appalling service....its almost embarrassing!!

Until the fare raise can be justified by providing us commuters excellent service and trains, Railcorp shouldn't think about any more fare hike!

All these petitions better not be falling on deaf ears!!! You better be doing something about this ridiculous money making scheme of RailCorp!
