Subject: Train Fares

Dear Sir/Madam:

I do not consider appropriate to raise the ticket trains for the following reasons:

1. Trains do not have air conditioning / heating systems I have to travel in Summer w/o Air conditioning and in winter without heating - really shocking to see this in Australia
2. No parking available - I have to walk 3 blocks every day to get to the station in Hornsby
3. Trains are most of the time unclean and with all sort of rubbish on the seats or the floor
4. We as employees are not getting much of a salary increase and soon will not be able even to afford a train ticket

Thank you
