

Tuesday, 4 November 2008

Dear Sir,

Please be advised that I am opposed to a rail fare increase effective January 2009.

I am just new to the job at St Leonards and I just can't afford to be late. But I was late again for work yesterday as the train I caught from Woy Woy stopped at Hornsby at 7.20am without offering the passengers any reason. We caught the next train in the other platform which runs as if they have all the time in the world, not running within schedule. In short, I was late for work again.

If this keeps going, I may lose my job soon. Rail Corp doesn't care, they are just after the money from the commuters but their service is so poor, I can't believe that they want to increase rail fare. I think it is abhorrent.

I am very, very new on the job and would not be earning the "average salary of \$98,000". I belong to the below average salary earner.
