Subject: SUBMISSION REGARDING INCREASE TO TRAIN FARES

RE: SUBMISSION REGARDING INCREASE TO TRAIN FARES

Please note that I am totally against the proposed increase to train fares when you consider that we can't even make the trains run to time and trains being cancelled so often.

It's clearly not a reliable service so you cannot justify putting up the ticket prices, people will not stand for this. Why should people have to pay even more for a service that doesn't service well?

Perhaps if the increase could guarantee that this will be rectified, then maybe people could understand or be more accepting of this.
