Subject: City Rail Fares

Dear Sir/ Madam,

This is unfair to raise the train fares to such an extent. On one hand people are promoted to use public transport and on the other hand if the fares are increased 25% over a period of time, is an injustice to daily commuters. As well more discount schemes should be implemented with a higher rate for monthly, quarterly pass to encourage people.

However looking at the policy now this is ridiculous and completely unfair.
