Subject: Fare Rises

To whom it may concern,

I was recently told that there is going to be a City Rail fare increase. I believe that this is unacceptable because of the conditions of the trains and the timetable, yes the trains have been running on time more recently than in past years but this should not mean that the fares need to be increased. the level of rubbish and filth on the trains is appalling, stations need to have bins on them so people don't just leave it lying around.

Regards
