Subject: Fare increases

I am a yearly ticket holder and my main gripe is the trackwork in the weekends (Im Central Coast)
Surely pass on your fare increases once your trackwork has been completed? I regreted paying \$1600pa only to find I would need to use my car every second weekend due to maintainence. I find the amount of your planned increases totally undeserved as I can not see one improvement in services in the year I have been travelling and don't think you could point any out to me either.
Totally unjustified
