letter.doc

Dear Amanda,

Subject: REVIEW OF THE WATER ADMINISTRATION MINISTERIAL CORPORATION WATER MANAGEMENT CHARGES TO APPLY FROM 1 July 2010

Thank you for inviting the Central West Catchment Management Authority (CMA) to provide input into the review.

We have read the issues paper and feel confident that IPART are aware of the issues for water users and the NSW Office of Water in determining an appropriate price.

The main issues raised with us by stakeholders in the past have been around the lack of transparency and accuracy in the departmental records and the lateness of information.

We believe that the NSW Office of Water has been working to upgrade their systems so that these issues can be addressed.

If you have any further questions, please contact me on 6881 3412 or jessica.brown@cma.nsw.gov.au.

Yours sincerely

Jessica Brown
Catchment Coordinator - Water Management
