Dear Sir

**Review of Sydney Catchment Authority's Prices and Operating Licence
from July 2012**

I refer to your advice regarding the current review of the Sydney Catchment Authority's Prices and Operating Licence from July 2012.

Representatives of Shoalhaven City Council, as a customer of the Sydney Catchment Authority for the Kangaroo Valley Water Supply system, met with SCA Officers in August 2011 to discuss the proposed pricing structure for the Kangaroo Valley supply.

The proposed prices provided by the SCA in their submission to IPART for Shoalhaven Council based on a usage for Kangaroo Valley of 80-100mL/annum are considered reasonable.

For any further information about this matter, please contact the undersigned on (02) 4429 3222. Please quote Council's reference 2213E.

Yours faithfully

Carmel Krogh
Director Shoalhaven Water
