Subject: Re; electricity price increase

We have just read in the Port Macquarie News, Friday 13th March and also heard on the Local radio about the electricity price from July 1. How can you expect people to be able to afford such a big increase in these tough financial times? The Government are pushing people to switch to solar power and now we hear electricity is rising at an unaffordable amount. It's the same old story the rich get richer and the poor get poorer! NOT HAPPY!!!!
