

28 February 2005

Independent Pricing and Regulatory Tribunal  
Level 2, 44 Market Street  
SYDNEY NSW 2000

Attention Mr Jim Cox - Acting Chairman

Dear Sir

**Submission on AGLGN Access Arrangement for NSW Network**

Metering Dynamics supports the submission from EnergyAdvice to make Metering Data Services for the NSW Gas Network contestable. This will provide the following benefits to the customers:

- a. reduced costs
- b. timeliness of accurate data because contestability will provide opportunities for innovations, driving cost down and improving services.

With Metering Services contestable, a Service Provider may be able to obtain both electricity and gas consumption data using the same communication infrastructure.

Having both gas and electricity consumption data available, the customer or its consultant can easily manage the energy portfolio.

Metering Dynamics would like to be involved in this discussion and to take part in forming the contestability policy.

Yours sincerely

A handwritten signature in black ink, appearing to read "Peter Chan".

Dr Peter Chan  
Manager Metering Dynamics
