Say no to alleged fare hikes

Dear Sir/Madam,

There has been talk of an increasing fare increase. This seems ridiculous as the trains are STILL not running on time, there is less frequency of trains, and less carriages. I still have to ride a hot box from City to Penrith with no airconditioning.

If City rail was able to get it right for the Olympics why can't it get it right for everyday use especially at peak. However, having said that it seems that as soon as peak is over almost daily trains are cancelled. They certainly are LATE.
