

**"Michel Dagher"**

To whom it may concern,

Fares are too high as it is in Sydney. Our train network is way behind the rest of the world. Why are there still un air conditioned trains? Where ten years behind the rest of the world.

Airport line brings in extra money, private line they call it!!!! Where are the special new trains like the ones in Hong Kong, even Bangkok which have storage areas for luggage?

Upgrade before price increases.....advise, save money on less announcements, especially Central!

Michael
