transport@ipart.nsw.gov.au

I must bring to your kind attention that among the people of Sydney who use the everyday transport services, there is a group of people called the "students". This group is further divided into two subgroups, namely, "LOCAL students" & "INTERNATIONAL students".

It's a pity on the international students that they do not have the luxury of CONCESSIONS while travelling.

If the prices are to be increased, at least there should be Fair Dinkum policy towards the students. They are already paying DOUBLE the amount they should be paying.

Thanks for the consideration
