No to Train tickets rise

I am writing to say no to fare increases for the following reasons:

I am a commuter from Hornsby and so far I can never get a parking in the station

I have to go to another station and commute back to Hornsby to get my connection (half an hour lost )

When I arrive to Hornsby the train waits for the one that I am going to connect to leave and then I have to wait another 20 minutes for the next train

When I have to get off in West Ryde I many times the train is cancelled or has gone already (another 20 minutes if you are lucky)

This is on top of getting during hot days (30 + degrees trains with no air conditioned and overcrowded - what an inhuman way of travel

and now a fare increase for what ? So far over the last 5 years I have not seen any improvement

Hope you can simpatize with these reasons which affects a lot of commuters around this area
