

Recently I attended a community meeting about the upgrade to the heritage listed Beare Park, Elizabeth Bay. The restoration of the ferry service which a local resident could remember from 40 years ago was brought up and received with assent by all at the meeting.

I would like to support Lord Mayor Clover Moore's submission to IPART on ferry and bus services in the city, in particular, the Beare Park restoration. This area is noticeably more dangerous traffic-wise with the influx of new residents (more to come in the old Rex and Landmark hotel redevelopments). Many older residents in this area no longer drive a car and would welcome a quick ferry trip to the city - Opera House. Art gallery and city.

Thank you, yours sincerely,

Loma Bridge
