Subject: City Rail, Proposed Fair increases 2009

To whom it may concern,

I feel that the review of the City Rail fares from 2009 – 2012 is inappropriate in its pricing. An increase in fares yet again will only result in people moving away from the use of the City Rail services as even now they are somewhat expensive for the average student, particularly those who live out of home. With increasing Interest Rates, and the situation in the world's financial market how can people be expected to be able to pay out even more money for a public service that should remain reasonably cheap as to promote the use of it?

Regards

Alexander
