**Subject:** Fare increase on trains

I could not find an easy way to submit through your website, hence the email, I am protesting about the proposed fare increase for City Rail. I strongly **disagree** with rising the prices of train fares, I believe they are costly enough now, it costs me \$25.00 per week to go 5 stops (just 5 stops) and 99.9% of the time in a train that looks more at home in a third world country than Sydney Australia, most of the trains are filthy and disgusting. To even think about rising fare prices is plain insulting.
