

16 October 2008

I wish to object to the payrise of rail tickets because:

I commute from Gymea five days a week most of the year

- we still do have a large amount of unairconditioned trains, last summer I noticed that a large amount of the trains in the afternoon peak hour going to Cronulla were not airconditioned.
- I have also noticed that very rarely if ever do we have the new Oscars trains
- Trains are always packed after only three stations in the morning and at night the train is full by Town Hall.
- and many a time trains are cancelled without warning not to mention always running late

I don't believe the service is good enough to have another price rise.
