

OK you give the northern beaches some new Volvo bendy buses for which I am grateful, but oh so uncomfortable! Rigid suspension the drivers tell me - but what about narrow seats, no luggage space & the capacity for fewer passengers! I remember the Mercedes bendy's with affection! I suspect one gets what they pay for.

Now.....bus fare increase?! You do treat the loyal travelling public with disdain. Services cancelled, standing room only for people day in day out.

GET THE SYSTEM IN ORDER BEFORE YOU DEMAND MONEY FOR SERVICES NOT RENDERED.

If I kept putting up prices in my business without delivering, I'd be out of business.

Another thing, join the rest of the world & stop the purchase of fares on buses! Don't print a more "realistic" timetable which in effect means a slower ride, just get rid of on board purchases! At least demand the correct fare. Try & consider your drivers & relieve some of their unnecessary burden.
