Subject: Water pricing (Hunter)

Dear Sir/Madam,

To whom ever!

I want to register my disgust and anger at recent comments by James Cox, Frank Sartor and Kevin Young! Re :-Newcastle Herald Report

Again you are ripping the Hunter Valley people off, how can you justify a price increase when every single year Hunter water makes \$\$\$\$\$ millions of dollars in profits and see, s none of that money spent here? Where does this money go? Consolidated funds? certainly not on infrastructure!

how can you call yourselves "Independant "when comments that James Cox makes supports the government !I would have thought that a man of his intelligence would review all matters before making any poitical statements

How can Kevin Young make a statement that "typical customer bills have dropped 17%over the past decade" so we need a price increase and then Frank Sartor stating "that we don't have a awareness of the value of water"

Obviously this price increase is opportunistic due to the current circumstances

Ben Wilcox
