Subject: Inquiry into bulk water pricing

Dear Madam / Sir,

In regard to media reports regarding IPART's determination into water price increases I would like to make the following comments.

The proposed increase make no allowance for large families. Only an estimated 0.2% of large family household's in the affected area have Commonwealth Health Care cards.

We have seven dependent children (one marriage) and we have implemented water saving devices on every shower and toilet.

We have a small garden with a lot of natives and we feel we are doing the best we can to conserve water.

The proposed increases are a **super tax** on large family and are clearly discriminatory.

We would please ask that you make allowance for families with dependant children.

Thanking you

M. Skipper
