Hi Michael

My name is Bob Douglas, in reference to the taxi situation.

I am a severely disabled man and I move around largely in taxis and claim a rebate.

The thing I would like to draw to your attention is that NSW is the only state which has a cap on the rebate, with the result all other States you pay just 50% of the total price. Here it's on \$60 the major claim you can make is \$30. This makes no account of the increases in taxi fares over the period of time.

Maybe you could submit this on my behalf.
